

## RAPSODI Newsletter 2

Dear members from the RAPSODI team,

Please find below some updated information about our severe asthma registry.

### Inclusion of patients

The number of patient's inclusions in our asthma registry keep increasing. We already have data from 668 patients, *thank you all again for the great team work!*

### Annual Follow-up

We realized that in some sites the annual follow-up visits are behind the schedule. Please keep these visits in mind and in case of any specific problem contact the RAPSODI coordinator ([S.hashimoto@amsterdamumc.nl](mailto:S.hashimoto@amsterdamumc.nl)). It would be amazing to have updated data from our patients to perform new analysis.

## *Stakeholders meeting 2020*

On the 20<sup>th</sup> February we had our annual RAPSODI stakeholders meeting. Thank you everybody who participated in person or via TC. Attached to this letter you will find the summary from the meeting.

Please take some time to read this short document and provide your feedback about your possible role in the collaboration analysis and manuscript. Also, in case any of the sites would like to have the data restricted to the own site please contact the registry coordinator (Simone Hashimoto, [S.hashimoto@amsterdamumc.nl](mailto:S.hashimoto@amsterdamumc.nl) ).

## *Amendment to the Collaboration agreement document*

The current version from the Collaboration agreement contract ("Samenwerkingsovereenkomst Gezamenlijke Verantwoordelijken, versie 4.1") refers to the outdated governance (version 3.0). Therefore, our legal department wrote an amendment to the contract that refers to the most updated RAPSODI governance. **We ask you all to please submit the attached amendment to your own legal departments for recognition and send a signed copy to the RAPSODI coordinator.**

*Thank you again for your great work !!*

Best regards,

Simone Hashimoto and Elisabeth Bel,

On behalf of the RAPSODI steering committee
